AC-01 Flying Alarm Clock

Digital alarm clock with large, easy to read backlit display

Rotor will fly as high as nine feet in the air

Easy to set

Snooze function

If you or your family members have trouble getting up in the morning, this Digital Flying Alarm Clock is an original and interactive way to get you out of bed. The base of the Digital Flying Alarm Clock launches a rotor into the air that flies around the room as the alarm blares. The ringing doesn't stop until you return the rotor to the alarm clock base. This is a great gift for anyone who isn't a morning person. The Flying Alarm Clock runs on four AA batteries (sold separately). This Flying Alarm Clock is perfect for college students, graveyard workers, or anyone who likes fun gadgets.
