

MDV-01

Mini Digital Video Recorder with 8G Memory

Make your own action movies - never miss a minute! Great for cycling, hiking and running, this incredible pocket-size camcorder fits in the palm of your hand and mounts easily to your bicycle handle bars - for thrilling action videos you film yourself! You can also strap it to your helmet or arm for hiking and running. Great for boating, motorcycle, car trips and skateboarding, too! Mounting included for free! Hi-resolution recordings. Your resulting action films will come to life in crisp, 640 x 480 resolution, 2-megapixel digital recordings-at an impressive 30 frames per second. The wide-angle, 72 degree field of view captures the big picture, and 8GB of included micro SD storage for 4.5 hours of footage - lets you film for extended periods. The rechargeable lithium-ion battery delivers up to 2 hours of action per charge with traditional and voice activated recording modes. This Mini DV can also be used as digital camera by switching it to camera mode.

- Thumb size Alloy Housing with High Resolution 2 mega pixel Color video recording for up to 250h standby time or 2 hour recording time
- Sound Activated Recording System and also can be used as webcam with USB 2.0 support
- Can be used for both video and photo taking: Videos: 25 frames per second and 640x480 video output, avi video format; Photos in jpeg format
