## RC-008

### Digital Audio Video Recorder Pen

Digital Pocket Video Recorder (4GB Spy Edition). This is a beautifully presented spy camera pen framed with a classy, gloss black exterior. Designed to look and work as a fully-functioning business pen, it is actually a DV camera for recording motion video or to still photographs of unsuspecting people. With its deceptively normal exterior, this is the perfect blend of modern technology and conventional stationery for all aspiring secret agents!

Easy to use and practical, this is an elegant and compact pen designed with portability in mind so it fits unobtrusively anywhere. This Spy Pen would be perfect for those work within business, education, HR, security, media, press relations, tourism and many other areas. This is a truly flexible and desirable item that can be used by anybody, anywhere! Place it on your desk, on a shelf, or in your shirt pocket - it is the perfect covert device!

With a capacity of 4GB flash memory, you can be confident of never missing any important information. Record hours of business meetings or interesting events on the sly. Stay one step ahead with this incredibly fun and novel spy gadget. This fantastic spy pen can also be used as a standard USB memory stick to conveniently transport your important computer files.

DV Camcorder Spy Pen - for covert surveillance or just having some fun

Features AVI file encoding on-the-fly, no need for complicated file conversion.

Takes digital video and still camera images Dual function as a useful storage medium as a standard USB memory stick
